1. The applicant shall defend, indemnify and hold harmless the City of Coachella, its officials, officers, employees, and agents from and against any claim, action, or proceeding against the City, its officials, officers, employees or agents to attack, set aside, void or annul any project approval or condition of approval of the City concerning this project, including but not limited to any approval or condition of approval or mitigation measure imposed by the City Council or Planning Commission. **WHEREAS**, the Planning Commission, in light of the whole record before it, including but not limited to recommendation of the Development Services Director as provided in the Staff Report dated October 10, 2013 and documents incorporated therein by reference and any other evidence within the record or provided at the public hearing of this matter, hereby finds that Change of Zone 12-03 is within the scope of that EIR; and

**WHEREAS**, the evidence before the Planning Commission supports the conclusion that Change of Zone 12-03 be approved as does the record consisting of the staff report, case file, exhibits on display and public hearing testimony; and

**WHEREAS**, all other prerequisites to the adoption of this Resolution have occurred.

**NOW, THEREFORE BE IT RESOLVED**, that the Planning Commission, in light of the whole record before it, including but not limited to recommendation of the Development Services Director as provided in the Staff Report dated October 10, 2013 and documents incorporated therein by reference and any other written or oral evidence within the record or provided at the public hearing of this matter, hereby recommends that the City Council approve Zone Change 12-0 for the 1,612 acres within the City of Coachella boundaries and as the rezoning for the 588 acres intended for annexation, based upon the following findings:

1. The proposed change of zone will serve the public necessity, convenience, general welfare, and will provide good zoning practice for the vicinity of the site so that is consistent with the overall vision of the Specific Plan, as amended.

2. The proposed change of zone is consistent with the intent and purpose of the General Plan, as amended by General Plan Amendments 12-02 and 12-03, in that the proposed Specific Plan zone allows mixed use commercial, single family and multifamily residential development that is in keeping with the goals and policies of the General Plan, as amended. The General Plan seeks to define and raise the profile and image of

the City, to obtain needed infrastructure and thus to improve the quality of life. The proposed development will provide a new gateway to the community as it would provide a future interchange at Avenue 50 and I-10 as needed access to the City. It also will provide for associated mixed use development at that future interchange. This project is consistent with the goals and policies of the Housing Element of the General Plan because it provides a range and diversity of housing types, including possible senior housing.
